Noting the difficulties that countries encounter in promoting entrepreneurship and in implementing privatization programmes due to lack of appropriate experience and technical capacities in those areas,

Welcoming the activities that have been and will be undertaken by United Nations organs, organizations and programmes and by the specialized agencies of the United Nations system for the benefit of recipient countries and in conformity with their own policies and priorities for development in supporting national efforts aimed at creating enabling environments for entrepreneurship and for the implementation of privatization programmes,

Recalling with satisfaction the active collaboration between the United Nations system and private-sector associations, such as the ongoing efforts of the United Nations Development Programme with the International Chamber of Commerce, the Business Council for Sustainable Development, and the Chamber of Commerce and Industry of the Group of 77,

Mindful of Secretariat resource constraints and therefore of the need to rationalize related agenda items and reporting requests,

1. Invites interested Member States to enhance the exchange of information among themselves and all relevant organs, organizations and bodies of the United Nations system on activities, programmes and experiences of Member States and the United Nations system concerning entrepreneurship, privatization, demonopolization, and administrative deregulation in order to increase the efficiency and effectiveness of technical cooperation in this field;

2. Requests the Secretary-General to strengthen, within existing resources and with due priority, the activities of the United Nations system related to the promotion of entrepreneurship and related to the implementation of privatization programmes, demonopolization, and administrative deregulation, through, inter alia, better coordination;

3. Calls upon the relevant organs, organizations, and programmes of the United Nations system, according to their mandates, to develop and, upon request, to increase technical assistance and to incorporate in their respective programming and activities specific objectives that will:

(a) Facilitate, as appropriate, the creation of enabling environments for the establishment and growth of small and medium-sized enterprises and for the support of local entrepreneurs;

(b) Facilitate, as appropriate, the design and implementation of privatization, demonopolization, and administrative deregulation policies and assist relevant national institutions in developing the capacities to issue appropriate policy, legal, regulatory and fiscal frameworks and incentives to promote entrepreneurship;

4. Encourages the relevant organs, organizations and bodies of the United Nations system in pursuing these activities to foster active partnerships between public entities and private entities, taking into account the self-organizing capacities of entrepreneurs, through, for example:
